

## **Proposed Resolutions to March 2019 Synod**

St John's United Reformed Church New Barnet commits to using all means possible to minimise global warming, including reducing the use of fossil fuels to environmentally sustainable levels, and urges the other churches of the Thames North Synod to do the same.

It calls upon Synod to:

(1) urge the Thames North Trustees to consider removing investments held in fossil fuel companies and report back to the October 2019 meeting of Synod with their view.

(2) request that Mission Council reflects upon the Report *Fossil Free Churches* produced by Operation Noah and reconsiders urgently the issue of disinvestment from fossil fuel companies.
